

## Reflections design

- Make a new file 720x480
- Fill the background with a lighter color (ex. Light red)
- Create a new layer

- Select>Feather, 50 pixels
- Hit Delete key to knock out the feathered oval
- Deselect

- Create a new layer
- Hit D to set colors to default
- Fill the selection with white or grey
- Deselect

- Fill the layer with a darker color red (ex. Dark red)
- Use Elliptical Marquee and make an oval in the center, cut edges off top and bottom

- Make a new layer
- Use the Marquee tool to make a rectangular selection on the lower third
- Select a peach or black color, fill the selection
- Do not Deselect

- Elliptical marquee, draw half oval on white that goes off bottom
- Select>Feather, 50 pixels

-Hit delete key to knock out oval

-Open the item to reflect, move to your background  
-Transform>Scale so the item is proportional

-Duplicate the item layer  
-Transform (Command T), right click Flip vertical

-Drag the duplicated/flipped item down below while holding the Shift key  
-Drag until the edges meet  
-Hit enter to lock in transformation  
-Drag flipped item below upright item in Layers Palette, lower opacity to 25 percent

-Add a text with a font that relates to your item,

-To complete your project:  
-Add a texture using Filters to your background or an item of similarity with a low opacity to the background.  
-Add the logo of the company and reflect it on the stage as well or include it in the background.  
-Save a copy as PSD and JPEG last name+ first initial+reflect
